The local inhabitants accommodated the participants in Bukovo by the old traditional way with bread and salt. The village was prepared for this event: the streets were cleaned, the balconies were embellished with blankets and rugs, and the gates were embellished with smelly spring flowers. After the participants and pedagogues finished their work they were invited to have a lunch with Bukovo inhabitants. After the lunch, at the center of the village of Bukovo there was a special performance for their dear guests. They performed songs and dances from all parts of Yugoslavia. Many sincere friendships were born that day in Bukovo among young Bukovo fellows and caravan participants, which lasts till the present day.

There were so many caravans after that. Several times the participants went to work in the town known as the pearl of Macedonia, the museum-town and the town of the Saint Clement and that is Ohrid. Few times the participants worked and visited the picturesque and the highest town on the Balkan - Krushevo, the very place where the Republic of Krushevo was found the very first republic established on Balkan. The Children Art Studio solemnly and in the spirit of the Christians religious rituals celebrates the great festive of Koledo.

The first Koledo's fire was set in the far 1989. It was a brave venture, regarding the fact that at that time we still live in a one-party communist system.

One distinguished craftsman from the Old Bazaar each year lightened the Koledo fire, on a traditional way. Around the fire the older visitors were having a hot "rakija" (alcohol), and the children have rolls, balloons, candies, chocolates and other gifts provided by the Studio.

The Studio will cherish these old Koledo traditions with love ever after.

ARRANGEMENT OF THE OLD BITOLA BAZAAR

The Children Art Studio made a great contribute to the ennoblement and arrangement of the Old Bitola Bazaar, which is considered to be among the most famous cultural-history monuments of Bitola and which is far famous by its beauty.

At first the Studio arranged the place in front of the Children Art Gallery, which is located in the heart of the Old Bazaar. On this location, in 1992 the Studio supported by its sponsors built a fountain with three water flows, which supply the inhabitants, on their great pleasure, with pure Pelister's water. This fountain is surrounded by three branches, which serve for the rest of all bazaar visitors.

On such arranged plateau a mast was placed 10 meters high, which held a flag on many occasions most of all at the opening ceremonies of "The Small Montmartre of Bitola".

The most magnificent embellishment of The Old Bitola Bazaar is the wall-fresco named as "Awakening", a masterpiece of the participants of Summer Art School of Bitola's Montmartre.
